

ICAS 1972 – AMSTERDAM, THE NETHERLANDS AUGUST 28 – SEPTEMBER 2, 1972

LIST OF AVAILABLE PAPERS

ICAS-72-01

The Daniel and Florence Guggenheim Memorial Lecture.

CHOICE AND BALANCE - A RESEARCH PROGRAMME IN AERODYNAMICS IN PERSPECTIVE

By G.Y. Nieuwland

ICAS-72-02

SAND EROSION OF GAS TURBINES

by G.P. Tilly

ICAS-72-03

A SEMI-EMPIRICAL METHOD FOR THE EVALUATION OF AEROTHERMODYNAMIC

PROPERTIES IN THE INTERMEDIATE HYPERSONIC FLOW REGIMES

By E. Vallerani

ICAS-72-04

FUTURE TRENDS IN AIR TRAFFIC CONTROL AND LANDING

by G.B. Litchford & G.L. Yingling

ICAS-72-05

A NEW METHOD OF CALCULATING THE NATURAL VIBRATIONS OF A FREE AEROPLANE

by M. Nowak

ICAS-72-06

HOLOGRAPHIC INTERFERENCE AS A MEANS FOR QUALITY DETERMINATION OF ADHESIVE
BONDED METAL JOINTS

by R.J. Schliekelmann

ICAS-72-07

AN EXPLORATORY STUDY OF FLYING QUALITIES OF VERY LARGE SUBSONIC TRANSPORT
AIRCRAFT IN LANDING APPROACH

by H.A. Mooij

ICAS-72-08

TWO-DIMENSIONAL DUCTS FOR COMPRESSIBLE FLOWS

By M.J. Cohen and H. Portnoy

ICAS-72-09

LAMINAR AND TURBULENT BOUNDARY LAYER STUDIES AT HYPERSONIC SPEEDS

by J.L. Stollery

ICAS-72-10

INFLUENCE OF DISCONTINUITY STRESS ON MAIN PROPELLANT TANKAGE OF A SPACE
SHUTTLE ORBITER

by H.R. Meyer and J.H. Dutton

ICAS-72-11

ETUDE EXPERIMENTALE DES ECOULEMENTS DANS LAS COMPRESSEURS SUPERSONIQUES

par J. Surugueet et Jean Mori

ICAS-72-12
TWO-DIMENSIONAL SUBSONIC LINEARISED THEORY OF THE UNSTEADY FLOW THROUGH A
BLADE-ROW WITH SMALL STEADY PITCH AND CAMBER ANGLE
by J. Leclerc

ICAS-72-13
POTENTIAL FLOW CALCULATIONS TO SUPPORT TWO-DIMENSIONAL WIND TUNNEL TESTS
ON HIGH-LIFT DEVICES.
by T.E. Labrujere, G.J. Schipolt and O. de .Vries

ICAS-72-14
HEAT TRANSFER IN SEPARATED REGIONS IN SUPERSONIC AND HYPERSONIC FLOWS
by J. Rom et al

ICAS-72-15
EXPERIMENTS ON METHODS FOR IMPROVED FUEL IGNITION IN SCRAMJET COMBUSTION
SYSTEMS
by F. Suttrop

ICAS-72-16
THE FUTURE OF SHORT HAUL AIR TRANSPORTATION SYSTEMS
by Robert W. Simpson

ICAS-72-17
COMPORTEMENT D'UNE COUCHELIMITE LAMINAIRE EN PRESENCE D'UN GRADIENT DE
PRESSION POSITIF
Par J.P.Guiberger et R. Marmey

ICAS-72-18
TECHNOLOGICAL ADVANCES IN AIRFRAME-PROPULSION INTEGRATION
by D. Zonars

ICAS-72-19
SOME ASPECTS OF INLET/ENGINE COMPATIBILITY
by D.D.Williams and J.O.Yost

ICAS-72-20
THE DEVELOPMENT OF INLET FLOW DISTORTIONS IN MULTI-STAGE AXIAL COMPRESSORS
OF HIGH HUB-TIP RATIO
by H. Mokolke

ICAS-72-21
SOME RESULTS OF INVESTIGATIONS OF PROBLEMS RELATING TO SUPERSONIC AND
HYPERSONIC COMBUSTION
by E. Krause et al

ICAS-72-22
NOISE RADIATION FROM V/STOL AIRCRAFT.
by M. Lawson

ICAS-72-23
ETUDE THEORIQUE ET EXPERIMENTALE DE LA REPARTITION DE PRESSION ET DE FLUX
THERMIQUE SUR UNE GOVERNE EN PRESENCE D'UNE EPAISSE COUCHE LIMITE
TURBULENTE HYPERSONIQUE
par R. Ceresuela et C. Gibart.

ICAS-72-24
ETUDE THEORIQUE ET EXPERIMENTALE D'UN STATOREACTEUR A COMBUSTION MIXTE
(DOMAIN DE VOL MACH 3/7)
par P. Contensou et al.

ICAS-72-25
EXPERIMENTAL INVESTIGATIONS OF SEPARATED FLOWS ON WING-BODY COMBINATIONS
WITH VERY SLENDER WINGS AT MACH NUMBERS M. 0.5 TO 2.2
by W. Stahl and W. Schneider

ICAS-72-26
CANADIAN SONIC BOOM SIMULATION FACILITIES
by I.I. Glass et al

ICAS-72-27
THE OPTIMUM CONFIGURATION AND THE OPTIMUM RE-ENTRY TRAJECTORY OF SPACE
SHUTTLE VEHICLES
by J. Kondo et al

ICAS-72-28
DYNAMIC INELASTIC PROPERTIES OF MATERIALS-
PART I - DAMPING CHARACTERISTICS OF FIBER COMPOSITES,
PART II – REPRESENTATION OF TIME DEPENDENT CHARACTERISTICS OF METALS.
by Z. Hashin et al

ICAS-72-29
MATERIAUX COMPOSITES PYROLYSES REIMPREGNES (CARBON-CARBON COMPOSITES)
par J.J.Choury

ICAS-72-30
BROADENED APPLICATIONS OF ADVANCED COMPOSITES
by A. M. Lovelace, R. K. Saxer and S. W. Tsai

ICAS-72-31
MODERN LANDING IMPACT LOAD CALCULATIONS AND OLD-FASHIONED REQUIREMENTS
by J. Yff

ICAS-72-32
HYPERSONIC TRANSPORTS - ECONOMICS AND ENVIRONMENTAL EFFECTS
by R.H. Petersen and M.H. Waters

ICAS-72-33
SOME RESULTS FROM TESTS IN THE NAE HIGH REYNOLDS NUMBER TWO-DIMENSIONAL
TEST FACILITY ON "SHOCKLESS" AND OTHER AIRFOILS
by L.H. Ohman et al

ICAS-72-34
POSSIBILITIES AND PROBLEMS OF ACHIEVING COMMUNITY NOISE ACCEPTANCE OF VTOL
by W.Z. Stepniewski and F.H. Schmitz

ICAS-72-35
DESCRIPTION ET MISE EN OEUVRE D'UNE METHODE DE CARACTERISATION DES SOURCES
DE BRUIT DANS LES JETS
par J. Taillet

ICAS-72-36

THE STUDY OF GASEOUS JET EXHAUSTING INTO VACUUM

by V.P. Shidlovsky and v.v. Svetsov

ICAS-72-37

COMPUTATION OF THREE-DIMENSIONAL NON-EQUILIBRIUM SUPERSONIC FLOWS

by P. I. Chushkin

ICAS-72-38

WEIGHT SAVING BY COMPOSITE PRIMARY STRUCTURES

by U. Hutter

ICAS-72-39

THEORETICAL AND EXPERIMENTAL INVESTIGATIONS ON THE PROBLEM OF AERODYNAMIC HEATING OF RE-ENTRY VEHICLES

by J.P. Hoffmann and A. Bauerle

ICAS-72-40

FATIGUE CRACK PROPAGATION IN STIFFENED PANELS

by A. Salvetti and A. Del Puglia

ICAS-72-41

THE DEVELOPMENT OF A PROTOTYPE STOL SYSTEM DEMONSTRATION

by D.L. Button

ICAS-72-42

CALCULATION OF THE RECIRCULATION FLOW OF VTOL LIFT ENGINES

by E. Schwantes

ICAS-72-43

INVESTIGATIONS OF THE USE OF A KALMAN FILTERING METHOD IN TRACKING SYSTEMS FOR AIR TRAFFIC CONTROL

by H.J. Kamphuis

ICAS-72-44

NON-DESTRUCTIVE EXAMINATION OF FIBRE REINFORCED POLYMERS, WITH SPECIAL REFERENCE TO CONTINUOUS CARBON FIBRE REINFORCEMENT

by C.N. Owston

ICAS-72-45

THEORETICAL AND EXPERIMENTAL FEATURES AND METHODS OF CREEP

by P. Santini

ICAS-72-46

MULTILOOP PILOTING ASPECTS OF LONGITUDINAL APPROACH PATH CONTROL

by Irving L. Ashkenas and S.J. Craig

ICAS-72-47

WAVE ENERGY EXCHANGER FOR HYBRID PROPULSION SYSTEM

by P. Berner and M. Hermann

ICAS-72-48

NASA AIRCRAFT ENGINE NOISE RESEARCH

by J.J. Kramer and R.G. Dorsch

ICAS-72-49
AERODYNAMIC INTERFERENCE BETWEEN AIRCRAFT COMPONENTS: THE POSSIBILITY OF
PREDICTION
by Th. E. Labrujere and H.A. Sytsma

ICAS-72-50
NOISE CONTROL TECHNOLOGY FOR JET-POWERED STOL VEHICLES
by H.H. Hubbard et al

ICAS-72-51
ECONOMIC AND SOCIAL ASPECTS OF COMMERCIAL AVIATION AT SUPERSONIC SPEEDS
by Bo.K.O. Lundberg

ICAS-72-52.....paper missing in archive

ICAS-72-53.....paper missing in archive

ICAS-72-54
QUASI – HOMOGENEOUS APPROXIMATIONS FOR WINGS WITH CURVED SUBSONIC LEADING
EDGES AT SUPERSONIC SPEEDS
by R. Coene

ICAS-72-55
SOME RECENT DEVELOPMENTS IN THE UNDERSTANDING OF 'JET NOISE'
by J.D. Voce and J. Simeon
