

ICAS Awardees 2014

ICAS — Daniel and Florence Guggenheim Award

The Distinguished Lectureship Award is intended to recognise and honour a scientist or engineer of eminence who in a long and productive career has made a significant contribution to progress in aeronautics.

Recipient: *Sergey Chernyshev*, Russia

Citation: In recognition for a lifetime of outstanding contributions to aeronautical research and technology development in support of defence operations and industry.

ICAS — Award for Innovation in Aeronautics

It's purpose is to recognise contributions of an individual or a team in effectively integrating a suite of advanced technologies, combined with new design and/or manufacturing processes, to create a new aeronautical system with significant worldwide impact.

Recipient: *Michimasa Fujino*, Japan

Citation: Mr. Fujino is nominated for pioneering the optimum Over-The-Wing Engine Mount (OTWEM) configuration and leading the HondaJet team to develop and produce the aircraft. This unique Over-The-Wing Engine Mount configuration significantly increases cruise efficiency while maximizes cabin space without increasing the size of the aircraft.

ICAS — Maurice Roy Medal

Its purpose is to honour a person with distinction who has an exceptional record in fostering international cooperation between scientists by their personal participation and involvement in aeronautics.

Recipient: *Joachim Szodruch*, Germany

Citation: For his exceptional record in fostering international cooperation between scientists by their personal participation and involvement in aeronautics.

ICAS — John McCarthy Student Awards

The Award or Awards, consisting of a certificate and a stipend, will be given to the author (or authors, should there be more than one who satisfies the qualifying criteria) of the paper the quality of content and presentation of which is judged to be the best or second best of those presented at the Congress.

Recipients: to be announced in the afternoon of **11 September 2014**

ICAS — von Karman Award for International Cooperation in Aeronautics

Its purpose is to acknowledge exceptional achievement in international cooperation in the field of aeronautics, being awarded to a project or programme in which two or more countries are major participants
